

## SCOPE OF ACCREDITATION TO ISO/IEC 17025:2017

BHD INSTRUMENTATION LTD.  
707 - 1200 Sherwin Road  
Winnipeg, Manitoba, Canada R3H 0K4  
Alfredo Ayat Phone: 204 633 4321

### CALIBRATION

Valid To: December 31, 2022

Certificate Number: 5037.04

In recognition of the successful completion of the A2LA evaluation process, accreditation is granted to this laboratory to perform the following calibrations<sup>1, 4</sup>:

#### I. Electrical

Parameter/Equipment	Range	CMC <sup>2, 3</sup> (±)	Comments
DC Voltage – Measure	(1050 to 100 000) V	0.15 % + 1 V	Ross VD-180, Agilent 34401A
AC Voltage – Measure	(1050 to 100 000) V	0.41 % + 0.016 kV	Ross VD-180, Agilent 34401A

<sup>1</sup> This laboratory offers commercial calibration service.

<sup>2</sup> Calibration and Measurement Capability Uncertainty (CMC) is the smallest uncertainty of measurement that a laboratory can achieve within its scope of accreditation when performing more or less routine calibrations of nearly ideal measurement standards or nearly ideal measuring equipment. CMCs represent expanded uncertainties expressed at approximately the 95 % level of confidence, usually using a coverage factor of  $k = 2$ . The actual measurement uncertainty of a specific calibration performed by the laboratory may be greater than the CMC due to the behavior of the customer's device and to influences from the circumstances of the specific calibration.

<sup>3</sup> The stated measured values are determined using the indicated instrument (see Comments). This capability is suitable for the calibration of the devices intended to measure or generate the measured value in the ranges indicated. CMCs are expressed as either a specific value that covers the full range or as a percent or fraction of the reading plus a fixed floor specification.

<sup>4</sup> This scope meets A2LA's *P112 Flexible Scope Policy*.

# Accredited Laboratory

A2LA has accredited

**BHD INSTRUMENTATION LTD.**

Winnipeg, Manitoba, CANADA

for technical competence in the field of

**Calibration**

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017 *General requirements for the competence of testing and calibration laboratories*. This laboratory also meets the requirements of R205 – Specific Requirements: Calibration Laboratory Accreditation Program. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 22<sup>nd</sup> day of December 2020.

A blue ink signature of the Vice President of Accreditation Services.

Vice President, Accreditation Services  
For the Accreditation Council  
Certificate Number 5037.04  
Valid to December 31, 2022

*For the calibrations to which this accreditation applies, please refer to the laboratory's Calibration Scope of Accreditation.*
